==================================
      METRO SMART CARD SYSTEM
      OPERATORS DEMONSTRATION
==================================

1. Arithmetic Operators
Base Fare       : Rs. 30
Surcharge       : Rs. 6
Addition        : 36
Subtraction     : 24
Multiplication  : 60
Division        : 15
Modulus         : 2

2. Relational and Logical Operators
Balance         : Rs. 250
Minimum Balance : Rs. 50
Sufficient Balance: true
Journey Hour    : 9:00
Peak Hour       : true

3. Peak Surcharge Calculation
Base Fare       : Rs. 30
Peak Surcharge  : Rs. 6
Total Fare      : Rs. 36

4. Passenger Concession
Student Status  : Yes
Concession      : Rs. 3
Payable Fare    : Rs. 33

5. Operator Precedence
x + y * 2       : 11
(x + y) * 2     : 16

6. Increment Operators
Expression Result: 9
Post-increment p : 6
Pre-increment q  : 4

7. Division and Modulus
10 / 3          : 3
10 % 3          : 1
-10 / 3         : -3
-10 % 3         : -1

8. Compound Assignment
Loop Total      : 18

==================================
Operators demonstrated successfully.
